RESERVATION  
OR RSVP  
REQUIRED**

In response to the Minden-Tahoe Airport receiving its very own Terminal Aerodrome Forecast (TAF), meteorologist from the National Weather Service Office in Reno have arranged to meet with local pilots to explain how they forecast and the various products and services they provide. This discussion will be aimed at exploring their different forecast products and how pilots can best utilize each one while performing preflight and en-route planning.

**Topics Covered will Include:**

How the National Weather Service Forecasts

Aviation Forecast Products

METARs

TAFs

Prognoses Charts

Surface Analysis Charts

Advisories (SIGMET/AIRMETS )

Various Other Products

The Soaring Forecast

Strengths and Limitations of Forecasting

General Questions & Answer Session

The Minden-Tahoe Airport is welcoming anyone who is interested in learning more about aviation weather. This event is free of charge and will be hosted by Soaring NV in their hangar. No reservation or RSVP necessary.
